Dear Hiring Manager,

I am writing to express my strong interest in entering the technology space and pursuing a career in data analytics. My passion for data-driven decision-making, coupled with my technical skills and dedication to continuous learning, makes me a strong candidate for roles in this dynamic field.

As detailed in my resume, I have a Bachelor of Science in Business Administration with a focus on Management and International Business. My coursework honed my analytical and critical thinking abilities, which I have further developed through practical experience. In my previous roles as an Inventory Analyst and Parts Sales Manager, I actively sought opportunities to leverage data to enhance processes, optimize inventory management, and deliver exceptional customer service. These experiences ignited my enthusiasm for working with data to drive insights and solve complex challenges.

My technical skills include proficiency in SQL, Python, and Excel, along with exposure to Power BI for data visualization. I am excited about the prospect of applying these skills to extract valuable insights from data, identify trends, and support data-driven strategies.

What sets me apart is my unwavering commitment to lifelong learning. I have pursued additional training in data analysis and have completed courses on SQL and Dashboards using excel, demonstrating my dedication to staying at the forefront of the rapidly evolving technology landscape.

I am particularly drawn to the collaborative and innovative culture that the technology sector offers. I am eager to contribute my skills and passion to a team that values creativity, problem-solving, and the power of data.

I look forward to the opportunity to discuss how my background and aspirations align with the goals of your organization. Thank you for considering my application.

Sincerely,

Ezequiel Vega Jungo
